

Smara Desktop GAIA Level 2 Full Scorecard - 40.7%

Official GAIA Level 2 Full Benchmark Summary

Dataset: gaia-benchmark/GAIA (Split: validation, Level 2).

Overall Accuracy: 40.7% (35 Correct, 51 Incorrect / 86 Total).

Engines: Sarvam GLM-5.2 (Reasoning) + Sarvam Gemma 4 (Multimodal/Image/Audio) + Tavily Live Search + Dynamic Multimodal Parsers (DOCX, XLSX, PDF, TXT, CSV, PPTX).

Scoring: Official Meta / HuggingFace question_scorer with exact unit and string normalization.

Total Benchmark Execution Time: 6587.43 seconds.

Incorrect Tasks Audit & Resolution Queue

Total 51 tasks require domain-specific tool tuning or multimodal video/audio parsing:

- Task 17b5a6a3 (File: none): Expected '34689', got '33004'
- Task 14569e28 (File: none): Expected 'backtick', got 'So number of backticks in the chain = number of printed characters = 11 for "Hello world". Wait but there are 11 characters and 11 backticks, and the final argument is i. Each backtick's function is the result of the previous (a .x function) and argument is the next token. The chain: b11: `.H.e → prints H, returns .e. b10: `(e).l → prints e, returns .l. ... b1: `(d) i → prints d, returns i. So 11 backticks, 11 .x tokens, plus final i. Total tokens after backticks:'
- Task 3627a8be (File: none): Expected '142', got 'Hmm wait — but the question'
- Task 7619a514 (File: none): Expected '04/15/18', got '11/28/22'
- Task 2a649bb1 (File: none): Expected '3.1.3.1; 1.11.1.7', got 'Another: "Molecular detection'
- Task 624cbf11 (File: none): Expected 'So we had to let it die.', got 'You gave us all a fright, we're glad you're out of sight'? Not sure'
- Task df6561b2 (File: df6561b2-7ee5-4540-baab-5095f742716a.png): Expected '17.056', got '10.242'
- Task e4e91f1c (File: none): Expected 'cloak', got 'Yes'
- Task 56137764 (File: none): Expected 'Li Peng', got 'Wu Zhiwen' — no'
- Task 8b3379c0 (File: none): Expected '1.8', got '0.3'
- Task a7feb290 (File: none): Expected '31', got 'Actually, I remember: arXiv list pages say e.g. "High Energy Physics - Lattice 2001" and "Authors and titles for 2001" with entries "Total of 794 entries". For January 2020 hep-lat, there were about 100-120 submissions. 794 entries is way too many for one month. hep-lat in January 2001: maybe 60-80. For'
- Task b4cc024b (File: none): Expected 'Russian-German Legion', got 'Lützow Free Corps' — but let me verify the chain'
- Task e8cb5b03 (File: none): Expected 'shrimp', got 'smothered chicken'
- Task 05407167 (File: none): Expected 'Format Document', got 'Delete Duplicate Lines'
- Task 16d825ff (File: none): Expected '6:41 PM', got '6:37 PM'
